For Canadian Pricing

Calculate in the following order to avoid rounding errors:

- Multiply the base price and each option by 1.03.
- Round each to the nearest dollar.
- Add base and options for total list price.

Ten Tips: How to Get the Most Out of This Book

Tip 1

Watch the tabs on the right-hand edges of the pages. They'll always indicate which chapter you are in.

Tip 2

Use the Statement of Line pages for an overview of the available components, their sizes, and page references for additional information.

Tip 3

Find cross reference by looking for page numbers flagged with an arrow.

Tip 4

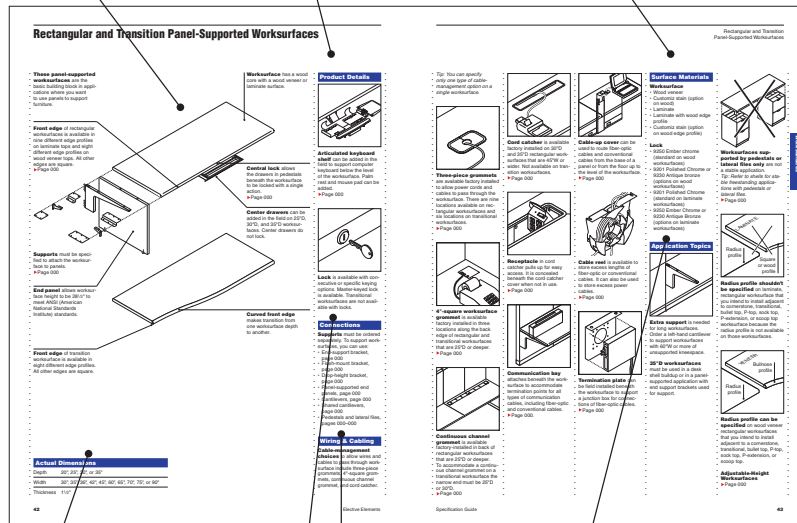

Study the product detail pages in the Understanding section to learn everything an expert knows about specific products. Each product detail page in this section contains the following features, where applicable:

- Product Drawing
- Actual Dimensions
- Product Details
- Connections
- Wiring and Cabling
- Surface Materials
- Application Topics

Product Drawing shows you what the product looks like and points out important features.

Product Details gives specific information on the product and how it is used.

Surface Materials lists what material is used for each part of the product.

Actual Dimensions table lists the dimensions of the product.

Connections describes how the product is assembled or how it attaches to another product.

Wiring and Cabling details the cable-management and cable routing capabilities of the product.

Application Topics provides useful advice on how to apply the product.

Tip 5

Refer to the specifying pages for all the information needed to order a product. Each product specifying page contains a variety of elements to help you complete a specification:

- Product Drawing
- Standard Includes
- Required to Specify
- Options
- Related Products
- Specification Information
 - Dimensions
 - Style Number
 - Price

Product Drawing shows you what the product looks like.

Standard Includes (under the dark grey band) provides a list of what comes standard with the product.

Required to Specify (under the dark grey band) itemizes the information that you must provide to order the standard product and the preferred sequence for specification.

Specification Information (under the light grey band) provides product dimensions, style numbers, and prices for the standard product and any surface material choices that are available.

Additional Resources

Integrated Technologies

products are supported with informational materials, tools, and software to help you plan, specify, and order an installation efficiently.

Printed Materials

Other Specification Guides

Steelcase offers a comprehensive portfolio of furniture and solutions. For the full offering of products, refer to the individual product specification guides. These can be accessed at the www.steelcase.com web site or at village.steelcase.com.

Computer Tools

Electronic Catalog

Accurate sales quotations and purchase orders for Steelcase products are created with specification software that uses Steelcase Electronic Catalog data. Use the data to specify and price style numbers and options for every Steelcase product.

The data is updated bimonthly by Steelcase and provided to software programs including: the Hedberg Business System, SmartTools—Steelcase's design and specification software (for more information on SmartTools, please email SmartTools@steelcase.com), the ProjectMatrix Project Symbols libraries, as well as 20-20 CAP Studio.

Furniture Symbol Graphic Data

Steelcase creates 2D and 3D furniture symbols (with attributes) for planning and initially specifying Steelcase products. This data is incorporated into several add-on software packages that work in either a Microstation or an AutoCAD drafting environment.

Digital Publications

If your device has a bar code reader App, scan this QR code for a direct link to the online digital publications. Utilizing this QR code allows you to search across multiple specification guides, share across social media, or print out pages. You can also access these digital publications at www.steelcase.com or village.steelcase.com.

Support

Steelcase Capabilities

Steelcase products are distributed, installed, and serviced through a network of more than 600 dealers worldwide. Steelcase is also represented with offices and corporate showrooms in 26 U.S. cities, 4 Canadian cities, and in France, Germany, Great Britain, and Japan. Every Steelcase product meets our exceptionally high standards of quality and durability and comes with the Steelcase assurance of excellence in service.

For assistance, please call your local dealer, the Steelcase Solutions Resource Team, or the Steelcase Solutions Fulfillment Team at 1.888.STEELCASE (1.888.783.3522) or send an e-mail to lineone@steelcase.com.

Call the Steelcase Solutions Resource Team prior to placing an order, when working on a bid, or when you need information about product applications and specifications.

Call the Steelcase Solutions Fulfillment Team if you have submitted an order to Steelcase and you need to speak to your Solutions Fulfillment Team Representative about the order. Also call if you have any post-shipment quality or warranty concerns or service parts questions.

Outside the U.S.A., Canada, Mexico, Puerto Rico, and the U.S. Virgin Islands, call 1.616.247.2500.

For information about Steelcase, the name of your nearest Steelcase dealer, or for product literature, call 1.800.333.9939 or visit our Web site: www.steelcase.com.

media:scape Tables

media:scape tables

support small team, collaborative meeting spaces. The tables are offered in three heights to facilitate collaborative work in multiple postures. They allow users to share information through integrated technologies displays and facilitate a seamless flow of information during meetings.

► Specifying, page 42

media:scape tables

are available in three table heights: 23"H lounge-height, 28½"H desk-height, and 38"H stool-height. Surfaces are 1⅜" thick with a wood core and are supported by a column structure. All surfaces are available in laminate or veneer and come standard with a knife edge.

Lounge-height tables

are available in three shapes: round, D-shaped, and pear. The D-shaped and pear tables include a totem.

Desk-height and stool-height tables

are available in nine shapes: square, rectangle, pear, round, small D-shaped, medium D-shaped, large D-shaped, capsule, offset, and TeamStudio (stool-height only). All are offered with an attached totem, except round.

Offset tables have a two-piece top which comes standard with two totems, one on each end of the table.

Totem is available in three finishes. Totems may be attached to all media:scape tables except round. The totem supports one flat screen monitor with an option to support two. An infill must be specified and is available in painted aluminum.

Surfaces are available in both laminate and veneer.

Monitors should have an HDMI input. Monitors should be multi-sync, with a horizontal frequency range of 31-80 kHz, a vertical frequency of 55-80 kHz, and a detachable C13/C14 cord.

One scaler is standard for a single monitor. Two scalers are standard for dual monitors. Additional scalers can also be ordered separately, to facilitate up to four displays.

Media well houses power receptacles, data ports, a power button, PUCKs, and has a hinged cover.

PUCK (*Personal User Control Key*) enables the seamless flow of information between team members. ► See page 34

Base is available in three finishes and includes a column and legs. A stainless steel foot ring is standard on the stool-height tables.

Profile surfaces have a 3 mm edge banding along all sides.

Glides provide 1" of adjustment for levelling.

Product Details

Laminate surface edges are plastic and finish selection is available.
 ▶ See *Recommended Surface Edge Finishes*, page 159, for recommendations.

Veneer surface edges are veneer and match the top surface.

Seismic anchor brackets secure the media:scape leg to the floor in seismic zones or in settings that need to be permanently attached to the floor. Brackets are ordered separately in a package of two (two packages should be ordered per table).
 ▶ See page 54.

To secure a monitor to media:scape, a locking mechanism can be ordered from an external supplier such as PDR (pdrmounts.com/pdr2/) model number PDM-0108.

Power and Data

Power is included.

Wires can be housed in the column media well.

media:scape TeamStudio

media:scape

TeamStudio is designed for active project teams collaborating on video. The tables are offered in stool-height to optimize for video sight lines and for multiple work modes. media:scape TeamStudio facilitates the sharing of both digital and analog information, while amplifying project team collaboration for both sides of the video conference.

► Specifying, page 52

Two opposing trapezoid-shaped tables are both optimized for video conferencing sight lines, promoting active collaboration within the space.

Circulation space allows participants the ability to move freely throughout the space, providing them easy access to analog tools such as whiteboards and flipcharts.

Displays on both sides of the application allow for the appropriate placement of both content and video participants. TeamStudio can be specified with a single totem, dual totems, or no totems for wall-mounted displays.

Single switcher links the two tables to act as a single media:scape table. PUCKs from either table can be used to share to the media:scape displays.

Product Details

Extension cables for media:scape TeamStudio are provided and can be routed through the floor (raised floor or cored) or via an optional cable track.

CODEC case and camera ledge should be specified to accommodate video conferencing applications.

media:scape Table — Wiring and Cabling

Attached Display

Scaler insures consistent image resolution to the displays.

Media well stores PUCKs when not in use and provides power receptacles. Data ports can be added if desired.
▶ See page 23

The switcher connects to the PUCKs, and controls which user's laptop content is shown on the display(s). Up to four displays, either monitors or projectors, can be accommodated.

The switcher sends the signal to the scaler through the HDMI cable.

A 7' power cord exits the base of the column and can be plugged into the floor or wall.

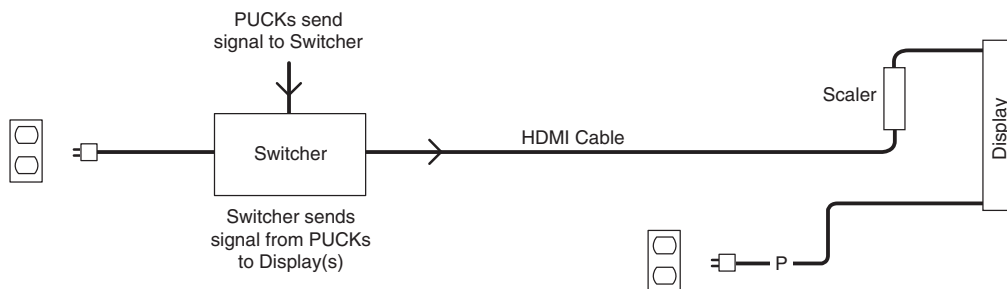

For power management, the media:scape setting will automatically go into standby mode when media:scape is not in use. The system can be reactivated by simply connecting a device to one of the PUCKs.

PUCK (Personal User Control Key) plugs into the user's laptop and allows them to send their content to the display by touching an illuminated display number. PUCKs are available in VGA, HDMI, DisplayPort, and mini DisplayPort connectors.

HDMI cable receives information from the switcher and sends that information to the scaler.
Note: When integrating with video conferencing, an additional HDMI cable and scaler is required.

Note: The faceplates can be removed
and replaced with other standard
faceplates. The faceplate opening size is
1.38"H. x 2.71"W.

media:scape - well

4. Replace covers.

Under the Hood

media:scape Table

6 power supply plugs are provided within the media well of every media:scape table.

media:scape switcher includes 8 input ports to connect to the PUCKs and 4 output ports for monitors or projectors.

Integrated pulley system allows PUCKs to be fully retracted into the media well to manage cables and stow PUCKs safely when not in use.

PUCK enables the user to seamlessly switch the information displayed on a laptop to a monitor or projector by touching an illuminated display number on the PUCK. PUCKs are available in VGA, HDMI, DisplayPort, and mini DisplayPort connectors.

Inputs 1-4 and inputs 5-8 support up to eight PUCKs that can be connected to the media:scape switcher. Although they look like HDMI cable inputs, plugging standard HDMI cables into these sockets can harm the switcher.

Switcher outputs are the output jacks to the monitors and projectors. The switcher can handle up to four output displays via HDMI cables.

A media:scape table provides two specialized audio/video inputs. For integration with video conferencing, cable television, document cameras, and other devices, please refer to switcher user manual.

The use of multisync monitors is recommended so that resolution incompatibilities between laptops and the monitors are minimized. Multisync monitors will resolve most laptop aspect ratios (4 x 3, 16 x 9, and 16 x 10) and resolutions.

A single monitor table with totem should be specified with a 40" to 42" diagonal screen dimension for optimal viewing. The inside dimension of the totem from above the table top to the underside of the totem is 28½"H, and the internal width between the two sides of the totem is 47½"W.

A 7' power cord exits the base of the column and can be plugged into the floor or wall.

For dual monitor solutions with a totem, a shroud is supplied to which 32" monitors can be attached.

A scaler is standard with each table. Additional scalers and HDMI cables should be specified for each additional monitor or projector.

media:scape hosts video conferencing solutions in two ways:

- 1. Using a webcam with a laptop** in combination with a collaborative software program.
- 2. Using a video conference system** that plugs into the media:scape switcher input number 9; allowing laptop information to be shared when collaborating between local and remote sites.

Note: An additional HDMI cable and scaler is needed to host a video conferencing system.

media:scape Digital Technology Kit

media:scape digital technology kit

allows customers with the original media:scape analog technology components to upgrade their media:scape table to digital technology. The digital technology kit includes everything necessary to upgrade a media:scape table (four, six, or eight PUCK tables with single or dual displays). The kit also includes a one year maintenance services agreement and a return and recycling program that allows customers to return their original analog technology components to Steelcase for a credit. See village.steelcase.com for more information

► Specifying, page 60

Product Details

Digital technology kit includes:

- Digital switcher - 1
- Digital PUCKs - 4, 6, or 8
- Digital scaler and HDMI cable(s) - 1 or 2
- Steelcase maintenance services - 1 Year
- Return label and packaging (for analog technology return and recycling program)

Note: HDMI monitor extension cables are intended for use with attached totem applications. For wall mounted monitor applications, HDMI monitor extension cables will need to be specified separately.

Tip: To secure a monitor to media:scape, a locking mechanism can be ordered from an external supplier such as PDR (pdrmounts.com/pdr2/) model number PDM-0108. media:scape mini, media:scape mobile, and FrameOne with media:scape monitor mounts have an integrated locking mechanism to accept a Kensington lock.

Wall-mounted shrouds

are available to support up to three 32", 42", 46", 55", or 65" monitors, (not included). Quad shrouds are available for 32" or 42" monitors. They are painted aluminum and available in platinum, arctic white gloss, near black, and midnight metallic.

Tip: Specify the seismic option if needed. This option is not available on shrouds with CODEC cases because these versions are already seismic compliant and additional parts are not required.

Monitor brackets are included and support most monitors.

Shroud-mounted

CODEC cases are available for dual and triple 42" and 46" monitors.

Tip: The 42" shroud-mounted CODEC case was designed to accommodate a maximum 28"W, 16½"D, and 2½"H CODEC. The 46" shroud-mounted CODEC case was designed to accommodate a maximum 28"W, 19½"D, and 2½"H CODEC.

Tip: Wall-mount hardware is not included. To complete an installation, consult with your project architect to determine the mounting specifications for your installation site. Consult with your local building code officials for specific code requirements applicable to your installation.

The bridge is an option on all single monitor shrouds, and dual 32", 42", and 46" shrouds. It tethers a detached table to the shroud and provides cable management. The bridge defaults to the finish selected for the shroud. The bridge is not attachable to the dual monitor shroud with CODEC (MTSWD32C).

Note: Bottom of shroud will be 5" above table top.

If a table is placed away from the wall, cables can be routed down the column, through the floor, and up the wall to the monitor. When coring the floor 2", conduit is recommended to easily fit the monitor extension cable HD15 connector.

Camera Ledges

Camera ledges are available to support video conferencing applications in either shroud-mounted or totem-mounted options.

Tip: Cameras are not included.

Shroud-mounted camera ledges can be mounted to all wall-mounted shrouds and the dual monitor totem shroud. They are available in platinum, arctic white gloss, near black, and midnight metallic. Shroud-mounted ledges include slot to accommodate camera mount.

Totem-mounted camera ledges can be mounted to any media:scape table with a totem and are available in platinum, arctic white gloss, and near black.

Tip: Sight lines will vary by camera and should be taken into consideration when specifying an application.

The CODEC case is available 2 1/2" thick or 5 1/2" thick to accommodate most CODECs. They are mounted to the bottom of the bridge on tables with totems, or to the shroud bridge option available on all single monitor shrouds, and 32", 42", and 46" dual monitor shrouds. The perforated cover lets heat dissipate from the CODEC and allows access to hardware for services. The CODEC case is available in platinum, arctic white gloss and near black.

Tip: The dual 42" and 46" shrouds and the triple 42" and 46" shrouds are available with a CODEC case stored behind the shroud. A bridge-mounted CODEC case would not be needed in this scenario.

A tether buckle is included to secure the CODEC. A Kensington lock is not included but recommended for security.

Tip: The 5 1/2" thick CODEC case was designed to accommodate a maximum 5" CODEC height, 16" depth, and 20" width.

Tip: All CODECs may not fit. Check the dimensions of the CODEC before ordering a CODEC case.

Tip: An additional breakout cable is needed to connect to the CODEC.

Actual Dimensions

	Depth	Width	Height
2.5	3"	23"	21"
5.5	6"	23"	21"

media:scape PUCKs

media:scape allows workers to collaborate with their devices by using new PUCKs that support a mix of digital and analog connections.

PUCKs are available in VGA, HDMI, DisplayPort, and mini DisplayPort connectors.

Each individual PUCK has a single connector and any combination of PUCKs can be specified on media:scape products.

► Specifying, page 63

VGA

HDMI

DisplayPort

mini DisplayPort

Product Details

VGA has been the standard analog output on most devices for the past decade. Many of today's enterprise laptops have both a VGA and a digital output.

HDMI is the common digital output on consumer devices. Most consumer laptops have HDMI outputs today.

DisplayPort is the common digital output on enterprise devices. Most enterprise laptops have DisplayPort outputs today.

mini DisplayPort is the common digital output on Apple™ MacBooks™.

To determine the appropriate mix of PUCKs, work closely with the customer's IT department.

When selecting mixed PUCKs, please use the images below to determine the location for each connector.

Use this configuration for media:scape tables with four PUCKs, mini, and mobile.

Use this configuration for media:scape tables with six PUCKs.

Use this configuration for media:scape offset tables.

Use this configuration for media:scape kiosk.

media:scape Virtual PUCK

Virtual PUCK allows easy and efficient wireless content sharing from laptops and tablets on multiple media:scape displays. Virtual PUCK maintains the simple “Open, Connect, and Share” user experience, like the original media:scape PUCK interface.

► Specifying, page 62

Users share content via a security-minded software application, complete with a simple and easy to use interface.

Content is shared on up to two displays.

Virtual PUCK receiver integrates directly with the media:scape digital switcher. It receives video content from the network connection, and shares the content to the switcher.

Virtual PUCK works seamlessly with physical PUCKs in any media:scape application.

Product Details

Virtual PUCK application, available for Windows or Mac laptops, allows users to wirelessly share content to one or two media:scape displays. Just like the “Open, Connect, and Share” experience of media:scape, users simply open the app, connect to the media:scape via a four-digit security code, and share content from anywhere in the room.

The Virtual PUCK app can be downloaded free of charge at www.steelcase.com.

Wiring and Cabling

Virtual PUCK receiver and media:scape digital switcher require a connection to the customer’s network.

HDMI cables connect the Virtual PUCK receiver to the media:scape digital switcher.

Mounting Options

media:scape tables host the Virtual PUCK receiver under the pyramid covers, in close proximity to the digital switcher.

media:scape mobile holds the Virtual PUCK receiver in the CODEC case.

Note: An HDVC kit is required.

media:scape kiosk houses the Virtual PUCK receiver in the boot cover, underneath the worksurface.

Stool-Height Tables

► Need help?
Product details,
page 16

Standard Includes

- Table: High-Pressure Laminate surface with 3 mm plastic edge on all sides
- Base with legs
- 6 PUCKs for all tables except offset table which is standard with 8 PUCKs
- 1 scaler (2 scalers for offset table and TeamStudio with dual totems)
- Totem with single monitor bracket, if specified
- Infill: painted aluminum, if totem specified
- Steelcase maintenance services (1 year)

Required to Specify

- 1 Style number
 - 2 Laminate color number for surface
 - 3 Plastic color number for edges on laminate surface
 - 4 Paint color for column, table base, feet, and totem frame (if specified):
4140 Arctic White Gloss
4799 Platinum Metallic
4803 Near Black Metallic
 - 5 Paint color number for infill
 - 6 Maintenance services (see below under Required Selections)
 - 7 Options, if selected (see below)
- See *Surface Materials*, page 152.

Tip: Steelcase maintenance services (1 year) are reflected in the base price of the product.

	Required Selections	U.S. Price	Required to Specify
Maintenance Services	• Steelcase maintenance services (1 year)	\$1650 Included in U.S. Base Price	Specify with <i>Steelcase maintenance services (1 year)</i> .

	Options	U.S. Price	Required to Specify
Surface Materials	High-Pressure Laminate tables		
	• Open Line laminate	+\$ 65 plus cost of laminate	► See <i>Surface Materials Reference Manual</i> .
	Wood veneer tables		
	• Wood veneer surface with wood veneer edges (3 mm edge profile)	Prices at right	Specify with <i>wood veneer</i> and indicate wood color number.
	• Premium wood 2 veneer surface with wood veneer edges (3 mm edge profile)	Prices at right	Specify Premium wood 2 finish number.
	• Premium wood 3 veneer surface with wood veneer edges (3 mm edge profile)	Prices at right	Specify Premium wood 3 finish number.
	• Customiz stain	Prices at right	Specify with <i>Customiz stain</i> . ► See <i>Surface Materials Reference Manual</i> . Specify full-fill finish number.
	• Full-fill finish	Prices at right	
	Painted aluminum infill		
	• Price group 1	No cost	Specify with <i>painted aluminum infill</i> .
	• Price group 2	+\$ 43	Specify with <i>painted aluminum infill</i> .
	• Price group 3	+\$ 128	Specify with <i>painted aluminum infill</i> .

Tip: For each additional display, order one additional scaler and HDMI cable.
Note: In totem application with dual monitor shroud, two scalers are already included.
► See page 59

*Tip: Monitors are not included. Monitors should be multi-sync, with a horizontal frequency range of 31-80 kHz, a vertical frequency of 55-80 kHz, and a detachable C13/C14 cord. For further information, go to steelcase.com and search for *media:scape*.*

Dual Monitor Shroud	Available on attached totem style numbers (except offset table)		
	• For dual monitor, two scalers and shroud	+\$1914	Specify with <i>two scalers and shroud</i> .
	Available on offset style numbers		
	• For dual monitor, four scalers (two monitors on each totem) and two shrouds	+\$4614	Specify with <i>four scalers and two shrouds</i> .
Totem Canopy	Available on attached totem style numbers (except offset table) and TeamStudio table with attached single totem		
	• Totem Canopy	+\$ 874	Specify with <i>totem canopy</i> .
	Available on offset style numbers and TeamStudio table with attached dual totems		
	• Totem Canopies	+\$1748	Specify with <i>totem canopy</i> .
PUCKs	ALL PUCKs same type – 6 PUCKs or 8 PUCKs		
	• VGA	No cost	Specify with <i>VGA PUCKs</i> .
	• HDMI	No cost	Specify with <i>HDMI PUCKs</i> .
	• DisplayPort	No cost	Specify with <i>DisplayPort PUCKs</i> .
	• Mini DisplayPort	No cost	Specify with <i>Mini DisplayPort PUCKs</i> .

media:scape kiosk is tailored to meet the needs of video collaboration for the individual. It is optimized for one user, but can host two users. media:scape kiosk can support casual, quick, informative conversations in the open plan, or evaluative working sessions in a small enclave. kiosk enhances collaboration, bringing together local and global teams to maximize organizational and individual potential.

► Specifying, page 72

media:scape kiosk is completely self-contained, eliminating the need to route cables through walls and floors.

Base is available in three finishes and includes the column. A storage compartment is included to house power cord when being transported.

Camera placement creates optimal sight lines and framing for users.

Media well offers two power outlets and two PUCKs.

Foot ring on standing-height version provides comfort while standing.

Product Details

kiosk is available in two versions – stool-height or desk-height.

media:scape kiosk includes two PUCKs for content sharing while collaborating on video.

Wiring and Cabling

media:scape kiosk requires power and two network connections (for both the digital switcher and CODEC).

Mounting Options

kiosk can be specified with mounting hardware for the Cisco EX90 or a 32" display.

media:scape mini and mobile

media:scape mini can be placed on top of any surface to transform spaces into collaborative work environments, extending the media:scape experience to smaller, existing settings.

► Specifying, page 83

media:scape mini

comes with four PUCKs available in VGA, HDMI, DisplayPort, and mini DisplayPort connectors.

► For media:scape PUCKs Understanding, see page 34

media:scape mini sets on the worksurfaces and does not require any attachments. For added security, mini can be bolted or locked to the worksurface.

Media well houses four power receptacles, a power button, PUCKs, and has a hinged cover.

Weight of media:scape mini is 90 lbs with the 40" shroud, and 94 lbs with the 42" shroud (monitor not included).

Shroud comes standard, and is easy to remove to provide access to technologies components.

Monitor is not included. media:scape mini has been optimized for 40" and 42" LED monitors. It has been designed to support specific Samsung and LG models. For recommendations, go to: www.steelcase.com/mediascape.

When using a 40" or 42" monitor that is not recommended by Steelcase, utilize the included hardware kit for mounting which provides all necessary cables and hardware to be used with mini. Monitors should be multi-sync, with a horizontal frequency range of 31–80 kHz, a vertical frequency of 55–80 kHz, and detachable C13/C14 cords.

The power cord on mini extends 7' out the back of the base.

PUCKs (Personal User Control Key) enable the seamless flow of information between team members. PUCKs may be specified as VGA, HDMI, DisplayPort, or Mini DisplayPort.

► For media:scape PUCKs Understanding, see page 34

media:scape mobile

allows users to apply media:scape in a diverse range of settings — from hospitality to education, business, and healthcare — wherever collaboration might occur.

► Specifying, page 84

media:scape mobile

can be wheeled up to any worksurface and should be placed with media well floating above the worksurface.

PUCKs (Personal User Control Key) enable the seamless flow of information between team members. PUCKs may be specified as VGA, HDMI, DisplayPort, or Mini DisplayPort.

► For media:scape PUCKs Understanding, see page 34

Product Details

Built-in security holes

allow monitors in media:scape mini and mobile to be secured using a Kensington lock.

Power and Data

Power is included.

Surface Materials

Base

- Paint

Shroud, bridge, and media well

- Paint to match base

media:scape mobile with HDVC

media:scape mobile can host video conferencing solutions. The HDVC kit includes a CODEC case, top-mount and under-mount camera ledges, a HDMI cable, and a hardware package. Monitor and camera are not included.

► Specifying, page 84

The CODEC case is designed for simplified installation of HDVC video conferencing with media:scape mobile. The location of the CODEC case allows easy access to all necessary connections when the shroud is removed.

The CODEC case is 5¾" thick to accommodate most CODECs. The perforated cover lets heat dissipate from the CODEC and allows access to hardware for services.

Tip: All CODECs may not fit. Check the dimensions of the CODEC before ordering CODEC case.

Actual Dimensions

CODEC Case	Outer Dimensions	Inner Dimensions
Depth	5¾"	5⅛"
Width	17"	14⅜"
Height	16"	12⅜"

Tip: Sight lines will vary based on camera, mounting position, and distance from participants.

Product Details

Top-mount camera ledge supports most industry standard HDVC cameras. Depth is 7" and width is 11 1/8".

Under-mount camera ledge accommodates most industry standard HDVC cameras. Depth is 8" and width is 11 1/8".

Flip-up door in base provides easy access to a power and data cables storage compartment.

A tether buckle is included to secure the CODEC. A Kensington lock is not included but recommended for security.

ScapeSeries table

supplies power to users and invites others to walk up and collaborate in multiple postures. It combines cornerless curves with straight sides that may dock alongside walls more effectively than typical round café tables, resulting in a more thoughtful relationship between workspaces, users, and the interior architecture.

► Specifying, page 90

Shroud comes standard with the table. It clamps to the underside of the work surface and conceals the power and data strip.

Power and data strip

includes three simplex receptacles and space for customer supplied voice/data outlets. It is not included with the table and needs to be specified separately.

► See page 91

Surfaces are available in both laminate and veneer.

Profile surfaces have a 3 mm edge banding along all sides.

Base is available in three finishes and includes a column and legs. A stainless steel foot ring is standard on the stool-height tables.

Glides provide 1" of adjustment for leveling.

Actual Dimensions

media:scape Lounge

media:scape lounge

creates collaborative work settings designed to support small teams of four to six people.

► Specifying, page 104

media:scape lounge

offers seven lounge pieces: straight, straight inverted, backless, right corner, left corner, reverse left, and reverse right. The lounge is designed to be easily reconfigured in many different ways to accommodate multiple settings. There are three different fabric orientations to choose from.

Due to the geometric shapes, it is recommended to use one of the standard fabrics, vinyls, leather, or a non-patterned COM, COL, or COV. The use of solid fabrics is recommended with media:scape lounge settings. Steelcase will not pattern match fabrics which have a distinct repeating pattern.

Tip: Canopy and ledge back panels are not available in full-fill or flat cut.

Totem canopy is optional on all tables with totems. It replaces the infill and is available in painted aluminum.

Lounge fabric is available in select Steelcase and DesignTex fabrics.

Glides are available in several finishes.

Lounge canopy

is optional on all corner and straight lounge pieces. It transforms the degree of privacy providing an intimate and protected setting. It includes a painted aluminum structure, fabric panel, and a laminate or veneer back panel.

► See *Thought Starters*, page 7.

Ledge is optional on all corner and straight lounge pieces. It acts as a surface and provides additional space for collaboration. It includes a painted aluminum structure, laminate or veneer back panel, and an optional laminate or veneer topper.

► See *Thought Starters*, page 7.

Tip: If specifying seating behind the ledge, maximum seat height should be 31" to provide appropriate leg clearance.

Upholstery Orientations

Same - The entire lounge is one fabric.

Edge - The top of the lounge is one fabric, along with the end of the corner unit. The remaining sides are a second fabric.

Front seat and back - The seat surface and the front of the back is one fabric and all other panels are a second fabric. The reveal on the back of the lounge is the same fabric as the seat surface and the front of the back.

Product Details

Straight lounge has a straight back which tapers to the front of the seat.

Straight inverted lounge has a straight back. It tapers from front to the back of the seat.

Backless lounge is the same shape as the straight lounge and tapers to the front of the seat.

Left corner lounge is left-handed in a seated position.

Right corner lounge is right-handed in a seated position.

The end of the corner lounges will have the same fabric as the top when edge upholstery is specified.

Reverse lounges are either right-handed or left-handed and provide the ability to transition seating from one side of an application to the other. They can be applied in either angled or straight applications.

Reverse left, when fitted next to a straight lounge, provides an angle similar to the corner left.

Reverse right, when fitted next to a straight lounge, provides an angle similar to the corner right.

Reverse lounges, that are specified with incorrect handed orientation will not align with other lounge pieces.

Use a reverse left to transition seating from one side of the application to the other and have seating on the left hand side.

Use a reverse right to transition seating from one side of an application to the other and have seating on the right side.

A reverse lounge piece must be used to transition seating from one side of an application to another. Attempting to transition seating without a reverse will prohibit adjacent lounges from being ganged together.

Surface Materials

Upholstery

- Steelcase or Designtex fabric
- Fabric with soil-retardant treatment (option)
- Leather
- ▶ See *Surface Materials*, page 152.

Tip: Thread color that is associated with the more dominant fabric will be used throughout the upholstery. Therefore, with the multiple upholstery option, the thread may be a contrasting color.

Glides

- 4140 Arctic White Gloss
- 4799 Platinum
- 4803 Near Black Metallic
- 8046 Polished Aluminum

Solid non-repeat fabrics are recommended for media:scape lounge because of the unique geometric shapes. When patterned fabrics are selected, patterns are not matched.

Programs & Services

- ▶ See the *Surface Materials Reference Manual* for further detail about programs and services offered for seating.

The Customer's Own Material (COM & COL) Program offers the opportunity for customers to select fabrics and leather that are not offered through the standard Steelcase surface materials program for use on Steelcase products. Avoid pattern fabrics and heavily grained leathers. Through the COM & COL program, Steelcase will test your materials for application on Steelcase products. Once approved, you can place your order. Steelcase will facilitate the entire ordering process and give you a production schedule. Steelcase will order the COM & COL fabric and leather directly from the textile manufacturer. For up-to-date information regarding fabric test results for all COM & COL fabrics and details regarding yardage requirements for most Seating lines, visit the COM Web site. To locate the COM Web site:

- Visit www.steelcase.com

Soil retardants are treatments that provide long-term soil and stain resistance to a fabric without affecting the shade or the integrity of the fabric. The following Steelcase Textiles are available pretreated with soil retardant. (You do not need to select the soil-retardant option for these fabrics and incur the upcharge.)

- Jacks
- Link
- Spyder

For information on soil retardant fabrics on Select Surfaces, please refer to the *Surface Materials Reference Manual*.

Soil-retardant treatment is available on all other seating fabrics at an additional upcharge per seating unit. To order this option, please select "Soil-Retardant Treatment" under "Optional Accessories."

For soil-retardant treatment on COMs, please select "Soil-Retardant Treatment" under "Optional Accessories." Minimums or additional yardage may be required. Please contact the vendor directly for specific information.

Extended lead times may be necessary for this service.

Contact your Steelcase Solutions Fulfillment Team Representative at 1.888.STEELCASE (1.888.783.3522) or send an email to lineone@steelcase.com.

Understanding and Specifying RoomWizard II

Product Details

RoomWizard II Room Scheduling System	122
--------------------------------------	-----

Specifying

RoomWizard II Room Scheduling System	124
RoomWizard II Accessories	125

RoomWizard II Room Scheduling System

RoomWizard II is a web-based room scheduling system with touchscreen display.

Reserve a room from any networked computer, smart phone, or RoomWizard II device.

RoomWizard II can stand alone or synchronize with systems like Microsoft Exchange, Lotus Domino servers, Google Apps, and several other third party software systems.

Display of the room's schedule, hostname, meeting purpose, meeting times, room details, and timeline are shown.

Touchscreen allows user to claim a room for an impromptu meeting, adjust meeting time, or end a meeting early.

Status lights are bright red and green which signal a room's availability from a distance.

Actual Dimensions

Universal Mount		
Width	8 1/8"	7 1/2"
Height	5 1/8"	2"
Depth	2 1/4"	1"
Installation depth with mounting bracket	2 1/4"	
Diagonal screen size	7"	
Weight	1 1/4 lb	

Product Details

RoomWizard II comes with everything needed to operate in classic mode, as a stand-alone system with standard firmware which is included. To operate in synchronized mode, the synchronization drivers must be purchased separately.
Tip: Firmware may be automatically updated via the internet or micro USB drive.

RoomWizard II screen can be wiped clean by using a microfiber cloth.

Built-in security holes allow RoomWizard II to be secured using a Kensington lock.

Analytics console records room occupancy and reservation patterns, then generates reports to provide insight into space utilization.

Administrative console manages, configures, and monitors all RoomWizards from a single interface. Both consoles are available for free download on the RoomWizard II support page at www.steelcase.com.

Wiring & Cabling

RoomWizard II connects to a network and is powered using Power over Ethernet (PoE). PoE cables run from the PoE switch typically located in the data closet. Industry standards set cable lengths at 100m. Contact your IT department to determine the PoE switch locations.

Mounting Options

The standard mount comes with each RoomWizard II and allows it to mount directly to hard surfaces.

The universal mount is an option and is used to mount to architectural mullions. It can also work for glass wall applications.

The universal mount with furniture hardware kit is an option and is used to mount to FrameOne, Post and Beam, and other furniture products.

Mounting RoomWizard II to media:scape does not require a universal mount, so ordering the furniture mount hardware kit separately is recommended for that application.

▶ See page 126

The direct-to-glass mount is an option and includes a vanity plate to visually conceal the hardware. It allows the RoomWizard II to adhere to glass surfaces.

Recommended mounting height is 54" from floor to top of unit.

The junction box plate mounts come in packs of five and are used to mount RoomWizard II to junction box plates.

Technical Specifications

Specifications

- Touchscreen: capacitive touchscreen
- Size: 7" diagonal
- Aspect ratio: 16:9
- Resolution: 800 x 430 WVGA
- Color depth: 16M colors

Understanding and Specifying TagWizard

Product Details

TagWizard Free Address Scheduling System	128
TagWizard, TagWizard Gateway, and RoomWizard with Gateway	130

Specifying

TagWizard Free Address Scheduling System	131
TagWizard Accessories and Software	132

TagWizard Free-Address Scheduling System

TagWizard is a free-address scheduling system for the enterprise that makes it easy to find and reserve work space.

► Specifying, page 131

TagWizard allows instant check-in with the swipe of a badge or the touch of a finger.

Advanced reservations can be made from the TagWizard Reservation application. Reservations will then appear in users' calendars, including Microsoft Exchange (Outlook), Google Apps (Google Calendar), and any third party system compatible with the iCal standard.

Status lights are bright red and green which signal a TagWizard's availability from a distance.

Touchscreen and embedded RFID reader allow users to claim a space, adjust reservation time, or end a reservation early.

Display of the TagWizard's schedule, employee name, reservation time, and time-line are shown.

Product Details

To create a TagWizard environment, there are several required and optional accessories and software. The Steelcase Application Server and a RoomWizard with Gateway or a TagWizard Gateway are required to run the system, and there are several other components that can add value.

TagWizard screen can be wiped clean by using a microfiber cloth.

TagWizard Manager Operating System is an application that runs on the Steelcase Application Server. It allows IT managers to configure, monitor, and manage the TagWizard system. It is included with the purchase of TagWizard and the Steelcase Application Server.

TagWizard Reservations is an application that runs on the Steelcase Application Server. It enables users to schedule a TagWizard in advance. Users make the reservation within the application, and the reservation is sent and displays within their calendar. Reservations can be sent to Microsoft Exchange (Outlook), Google Apps (Google Calendar), and other calendaring systems compatible with the iCal standard. TagWizard Reservations is an optional application that can be purchased along with the Steelcase Application Server.

Actual Dimensions

Width	5½"		
Height	3¼"		
Depth	¾"		
Installation depth with mounting bracket	Horizontal mount:	4¼"H, 2½"D	
	Vertical mount:	3¼"H, 2"D	
	Rail mount:	6"H, 2½"D	
Diagonal screen size	4½"		
Weight	½ lb		

TagWizard Analytics is an application that runs on the Steelcase Application Server. It records work space occupancy and reservation patterns, then generates reports to provide insight into space utilization. TagWizard Analytics is an optional application that can be purchased along with the Steelcase Application Server.

TagWizard is powered using USB 2.0. Each TagWizard includes a 5' USB cable, and a power converter in order for the TagWizard to connect to a standard outlet. Each TagWizard consumes a USB 5.0W max. A TagWizard communicates wirelessly to a RoomWizard with Gateway or a TagWizard Gateway. The gateway connects each TagWizard back to the Steelcase Application Server.

Mounting Options

Four mounting options for TagWizard Free Address Scheduling System are available to accommodate various settings: horizontal, vertical, rail, and slatwall mount.

Horizontal mount adheres to the worksurface using 3M adhesive. The adhesive is strong, but can be removed without damaging the worksurface.

Vertical mount is designed to mount to any vertical surface, including panels and drywall. It can either adhere using 3M adhesive or fasten with hardware.

Rail mount is designed to mount to Steelcase products. Currently, the rail is available on c:scape, FrameOne, and SOTO products.

Three mounting options for RoomWizard with Gateway are available.

ēno Classic, ēno Click, and ēno Flex Interactive Whiteboards

ēno Classic, ēno Click, and ēno Flex interactive whiteboards can be used as a conventional whiteboard with any traditional dry eraser marker, or as an interactive whiteboard with the use of a projector and an ēno stylus.

The ēno Classic interactive whiteboard installs like any conventional whiteboard. No power or cables are required.

The ēno Click interactive whiteboard uses magnetic mounting hardware and mounts instantly over an existing ceramic-steel chalkboard, whiteboard, or any other steel surface. No power or cables are required.

ēno Classic and Click interactive whiteboards are available in three different dot patterns: A, B, and C. This enables up to three boards to be independently calibrated in the same room and to operate properly.

Interactive application: ēno can be used as an interactive whiteboard when used with the ēno stylus in conjunction with any Windows or Apple computer (not included) and any projector (not included with ēno interactive whiteboards, but can be ordered separately). For best experience, ultra short-throw projectors are recommended.

Actual Dimensions — ēno Classic and ēno Click

Dimensions include whiteboard frame

	Overall Depth	Overall Height	Overall Width
ENO2610	1"	48 ¹ / ₄ "	64 ¹ / ₂ "
ENO2810	1"	48 ¹ / ₄ "	85 ¹ / ₂ "
ENOCCLICK2650	1 ¹ / ₄ "	43 ³ / ₄ "	64 ¹ / ₂ "
ENOCCLICK2850	1 ¹ / ₄ "	43 ³ / ₄ "	85 ¹ / ₂ "

ēno Flex integrates multiple ceramicsteel dry erase panels and ēno interactive whiteboards into the same surface. It installs like any conventional whiteboard. No power or cables are required.

All ēno Flex configurations include a full-length marker tray, as well as a full-length tack rail with a flag holder, two map clips, and two map rail hooks.

ēno Flex 100, ēno Flex 200, and ēno Flex 686 solutions are only available in the A dot pattern.

The ēno Flex 280 solution includes both an A dot pattern board and a B dot pattern board.

Actual Dimensions — ēno Flex

	• Overall Depth	• Overall Height	• Overall Width	• Center Panel Height	• Center Panel Width	• Side Panels Height	• Side Panels Width

Product Details

ēno interactive whiteboards feature a pattern invisible to the naked eye. The pattern consists of numerous intelligent small black dots that can be read by the ēno stylus. The pattern indicates the exact positions of the ēno stylus.

Any Bluetooth® enabled computer (Apple or Windows-based) with the ēno App installed can be used in conjunction with ēno to enable interactive whiteboard capability. Any projector can be used to project images from the computer to the ēno whiteboard.

The **ēno stylus** works with the ēno whiteboard to enable interactive capability with a computer. For example, when a computer based presentation is projected onto the ēno whiteboard, the stylus can be used to guide the presentation or interact with a computer program, similar to keyboard or mouse commands.

Each ēno Classic and ēno Click interactive whiteboard comes complete with:

- one ēno whiteboard with one of three dot patterns. Every ēno whiteboard features the e³ ceramicsteel writing surface
- one Bluetooth enabled stylus with one AAA battery
- two replacement stylus tips
- one ēno receiver for Windows or Macintosh (USB interface)
- the ēno App
- RM Easiteach® software

Each ēno Flex interactive whiteboard comes complete with:

- one ēno whiteboard, which features e³ ceramicsteel writing surface
- one Bluetooth enabled stylus with one AAA battery
- two replacement stylus tips
- one ēno receiver for Windows or Macintosh (USB interface)
- one Bluetooth
- RM Easiteach software

Computer projector is not included.

Installation

ēno interactive performance requires the installation of the ēno App on the computer and the ēno receiver included with ēno.

The ēno Classic and ēno Flex whiteboards

install like any conventional whiteboard. There are no power requirements and therefore no wires. Because it transmits to the computer via Bluetooth there are no communication cable requirements.

The ēno Click interactive whiteboard comes with magnetic mounting hardware and mounts instantly over any ceramic-steel or steel surface. Because ēno transmits to the computer via Bluetooth, there are no communication cable requirements.

Application Topics

ēno Classic and ēno Click interactive whiteboards are available with A, B, and C dot patterns which allow up to three boards to be independently calibrated in the same room and operate properly. In a multiple interactive whiteboard application, no two whiteboard dot patterns should be the same.

ENOFLEX100, ENOFLEX200, and ENOFLEX686 interactive whiteboards are only available in A dot pattern.

Environmental Certifications

ēno Classic and ēno Click

- MBDC Cradle to Cradle Silver
- SCS Indoor Advantage
- RoHS

ēno Flex

- SCS Indoor Advantage
- RoHS
- Qualifies for LEED points

Warranty

ēno Play

ēno Play integrates sound with the world's most durable interactive whiteboard to tune in every type of learner, from auditory to kinesthetic to visual.

Amplifier is standard with two 20 watt output channels and two input jacks.

Quick access volume control allows user to adjust sound from computer or application in use.

Audio input is 3.5 mm and is located in front or rear of amplifier.

Product Details

ēno Play consists of an amplifier, driver pack, audio input cable, and hardware mounting extender bracket for an ēno board.

Amplifier is standard with two 20 watt output channels and two input jacks, and is electronically protected against reverse and over voltage power input supply.

Amplifier output power is 24VDC; 1.88A, and input power is 100-240VAC; 50/60Hz.

Driver pack is standard with two transducers and maximum power of 15 watts rms. Driver pack IEC 268-5 maximum power is 30 watts rms.

Audio input cable is 3.5 mm, stereo, and 25' male to male. It is available in the following lengths: 6", 1', 3', 6', 12', 15', 35', 50', and 75'.

ēno Play has an operating temperature of 41°F to 95°F and an operating humidity of 10% to 90% non-condensing. ēno Play has a storage temperature of -5°F to 140°F and a storage humidity of 5% to 95% non-condensing.

Environmental Certifications

- FCC
- CE
- RoHS
- WEEE

Warranty

Surface Materials

This listing includes all the surface material choices that are available for the products in this specification guide.

Resources

For more information about surface materials, refer to the following resources:

Additional surface materials specification tools are available to assist you in the specification process—the Surface Materials Binders.

The global surface materials palette is a core collection of finishes that is available across multiple geographies (Americas/EMEA – Europe, Middle East, and Africa/APAC – Asia Pacific) and on global product lines, where applicable. For a list of finishes included in the offering, see the *Surface Materials Reference Manual*. Additional details, like product approvals by geography and finish number conversions, can also be found in the *Surface Materials Reference Manual* or see steelcase.com/surfacematerials.

Custom Surfaces

Open Line Laminate (OLL)

This service allows you to order non-standard laminate at an additional processing fee of \$65 U.S. per worksurface or top, plus the cost of the laminate.

When processing orders for Open Line laminate on c:scape and media:scape, specify 2900 in the laminate finish field and enter the OLL manufacturer information. Enter the required edge finish as you would a standard laminate.

Note: Open Line laminate (OLL) is not available on media:scape lounge ledges and canopies.

Laminate Approval and Material Requirements

To confirm whether a particular laminate has already been tested for use on a specific Steelcase product or to determine material square foot requirements:

- Visit www.steelcase.com

For additional information, refer to the *Surface Materials Reference Manual*.

Wood

Applies to:

- media:scape tables
- ScapeSeries tables
- media:scape lounge ledges and canopies

Steelcase carefully selects veneer and solid wood for consistent color and grain structure. Wood is a natural material and variations will occur in color, grain and texture. These variations are part of the inherent natural beauty of wood and are not considered defects.

All wood products will darken with age and exposure to ultraviolet light. This is especially apparent with cherry and maple veneer. We recommend that desk accessories be rearranged periodically to ensure even aging of wood surfaces.

When storing your wood furniture, please follow the following guidelines:

- Do not store products in trailers
- Store products in areas that simulate office temperatures (60°F to 90°F)
- Store products in areas that maintain constant, office-like humidity levels
- Keep product away from light. Cover products to make sure they are not exposed to light.

Steelcase Surfaces

Veneer

Veneers are matched for proper balance and consistency. Veneers are available flat cut or quarter cut, except for Oak, which is rift cut. Refer to the *Surface Materials Reference Manual* for descriptions of each cut.

Open-pore finish is a medium gloss finish that leaves the wood grain texture visible to the eye and distinguishable to the touch.

Flat-cut open-pore finish choices

- 3062 FC/OP Graphite Walnut
- 3402 FC/OP Clear Cherry (Aged)
- 3412 FC/OP Natural Cherry ^E
- 3422 FC/OP Medium Cherry
- 3522 FC/OP Clear Maple*
- 3572 FC/OP Amber on Maple ^E
- 3592 FC/OP Blonde on Maple
- 3702 FC/OP Clear Walnut
- 3712 FC/OP Natural Walnut
- 3722 FC/OP Dark Mahogany on Walnut
- 3752 FC/OP Medium Walnut
- 3762 FC/OP Dark Walnut
- 3772 FC/OP Medium Mahogany on Walnut

Quarter-cut open-pore finish choices

- 3042 QC/OP Ash*
- 3222 QC/OP Clear Maple*
- 3272 QC/OP Amber on Maple ^E
- 3292 QC/OP Blonde on Maple
- 3302 QC/OP Clear Walnut
- 3312 QC/OP Natural Walnut
- 3322 QC/OP Dark Mahogany on Walnut
- 3352 QC/OP Medium Walnut
- 3362 QC/OP Dark Walnut
- 3372 QC/OP Medium Mahogany on Walnut
- 3382 QC/OP Graphite Walnut

Rift-cut open-pore finish choices

- 3602 RC/OP Desert Oak
- 3612 RC/OP Warm Oak
- 3692 RC/OP Espresso Oak

Full-fill finish is a medium-gloss finish that completely fills the grain texture, yet allows the grain pattern to be seen. The wood has a lustrous, satiny look, and it is smooth to the touch. This finish is available on the wood desks or top only.

Flat-cut full-fill finish choices

- 3064 FC/FF Graphite Walnut
- 3404 FC/FF Clear Cherry (Aged)
- 3414 FC/FF Natural Cherry ^E
- 3424 FC/FF Medium Cherry
- 3524 FC/FF Clear Maple*
- 3544 FC/FF Blonde on Maple
- 3574 FC/FF Amber on Maple ^E
- 3704 FC/FF Clear Walnut
- 3714 FC/FF Natural Walnut
- 3724 FC/FF Dark Mahogany on Walnut
- 3754 FC/FF Medium Walnut
- 3764 FC/FF Dark Walnut
- 3774 FC/FF Medium Mahogany on Walnut

Quarter-cut full-fill finish choices

- 3224 QC/FF Clear Maple*
- 3274 QC/FF Amber on Maple ^E
- 3294 QC/FF Blonde on Maple
- 3304 QC/FF Clear Walnut
- 3314 QC/FF Natural Walnut
- 3324 QC/FF Dark Mahogany on Walnut
- 3354 QC/FF Medium Walnut
- 3364 QC/FF Dark Walnut
- 3374 QC/FF Medium Mahogany on Walnut
- 3384 QC/FF Graphite Walnut

Rift-cut full-fill finish choices

- 3604 RC/FF Desert Oak
- 3614 RC/FF Warm Oak
- 3694 RC/FF Espresso Oak

**To ensure an understanding of the color ranges and characteristic variations of natural veneer, a sign-off sheet is required prior to orders being accepted for this clear-coat finish. The sign-off sheet is available through Steelcase advertising stock. Please use form number 09-0000756 for 3042, form number 05-001370 for 3222 and 3224.*

Steelcase Surfaces

Premium Veneers

A selection of Premium veneers in this collection are available on most Steelcase brand products. The collection will be available as close to standard leadtimes as possible. However, because adequate supplies of veneer and solids must be secured, all orders will be scheduled individually. Lead-times will vary based on Premium veneer and Premium solids availability at the time the order is placed. The collection is Graded-In as Wood Group 2 and Wood Group 3, and supported like standard veneers to make ordering easy. Please see the Steelcase surface materials section on village.steelcase.com for sample information and product line availability. All premium veneers are in clear-coat.

Quarter-cut open-pore finish choices

Wood Group 2

- 3032 QC/OP Dark Thin Line Bamboo
- 3052 QC/OP Ribbon Sapele

Wood Group 3

- 3832 QC/OP Figured Anegre
- 3842 QC/OP Figured Makore

^E = Established

Note: Full-fill finish is not available on Premium veneers as a standard. To ensure an understanding of the color ranges and characteristic variations of natural veneer, a sign-off sheet is required prior to orders being accepted for this clear-coat finish. The sign-off sheet is available through Steelcase advertising stock. Please use form number 09-0000755 for 3032, form number 09-0000757 for 3052, form number 09-0000758 for 3832, and form number 09-0000759 for 3842.

Custom Surfaces

Customiz stain is a service that allows you to create your own stain colors on standard veneer. Customiz stain color is available on all product lines that offer wood veneer.

A one-time formulation fee of \$425 U.S. per color, per customer processing fee will apply. The fee covers the cost of formulating the Customiz finish and applies regardless of whether or not an order for product is placed. Please refer to "Customiz Stain" option price column in your specification guide for the unit upcharge.

Customiz stain takes 10 days to formulate. Consult the *Surface Materials Reference Manual* for more information. Custom veneers are also available and must be quoted by special engineering. Customiz stain on custom veneers takes 2 to 4 weeks to formulate.

Requirements and information on ordering a Customiz stain color are found in the *Surface Materials Reference Manual*.

Tip: When Customiz stain is specified, the veneer will be applied vertically.
